

## HOLY WEEK

Holy Week in the Orthodox Church is the culmination of seven weeks of fasting and contains different services for each day of Holy Week. There are an incredibly large number of Scripture Readings for each day of Holy Week as we walk through what is happening to the Lord Jesus Christ that week. Not just the Scriptural accounts of the events are read, but also a large number of the Prophetic predictions of what will occur are read. In this Study, we address what the Church Fathers have had to say about all the Scripture Readings for each day of Holy Week.

Going through all these services and understanding all the Scripture Readings for each day in Holy Week just once in one's life will change anyone's life! This is the foundation of Christianity! People make pilgrimages to the Holy Land to see some of the places where these events happened and come back a profoundly changed person. Going through this Study will do the same thing!
